

# This year the country's solar container policy

## Overview

---

solar industry, from federal tax credit rules to state-level program expansions. Solar developers, manufacturers, and investors are now adjusting to new regulatory realities that will shape project economics. Tariffs, foreign content restrictions, and antidumping and countervailing duty investigations have reshaped the landscape for imports of solar components and manufactured products. Image: Wikimedia Commons /Wayback Machine From pv magazine RE+ Special Edition Imports are a huge. With uncertainty surrounding the Inflation Reduction Act (IRA), increasing import. Despite both a quarterly and annual decline in capacity, Q1 2025 was the industry's fourth-best quarter.
