

Three-volt solar container solution

48V 100Ah

Overview

Built on a 20 feet standard marine container, this mobile office space provides electricity 24 x 7 without grid connection with a power capacity which ranges from 4 to 8 kWp from solar panels on the top of the container and a battery that can provide a backup for upto four. FutureVolt's Container BESS Solution works seamlessly with solar and wind resources to maximize clean energy utilization and smooth out fluctuations in supply and demand. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Among the most scalable and innovative solutions are containerized solar battery storage units, which integrate power generation, storage, and management into a single, ready-to-deploy.
