

Uk solar container

Overview

A containerized, movable off-grid solar power solution that unfolds into a high-capacity PV array in minutes. Designed for fast deployment, reliable output, and easy transportation to remote sites, farms, construction areas, emergency zones, and temporary facilities. Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK. An off-grid power system that delivers power to converted container buildings and container-based renewable energy systems designed to. The beauty of our systems is they are completely expandable in terms of PV Panels, Inverter Kw output/phases and battery storage.
