

When will the state-owned soybean oil be auctioned

Overview

The season-average soybean price forecast is down 30 cents this month to \$10. This month, USDA, National Agricultural Statistics Service (NASS) published the Crop Production— 2025 Summary report, which increased the 2025 U. Near-record soybean production from the 2024 crop coupled with the inauguration of President Donald Trump and the transition away from green policies have provided plenty of pressure for the oilseed. We are pleased to announce the State Surplus Property Auction is open and available online. Check out our location-based Cash Grain Bids tool [here](#)! Shawn Hackett with Hackett Financial Advisors says with corn and soybean prices.
