

Where are the iraqi solar container sites

Overview

Tens of thousands of black panels are set out in rows in a huge desert area, spanning some 4,000 dunams (1,000 acres or 400 hectares) in the al-Hur area of Karbala, located southwest of capital Baghdad. Iraq is moving decisively to tackle its chronic electricity shortages by preparing more than 120 sites for new solar power projects. Located around Baghdad and across several provinces, these plots have been cleared and designated for investment, enabling local and international companies to begin.
