

Wind power generation solar container line

Overview

Small-scale wind turbines can be mounted on or near the containers, providing a complementary energy source to solar power. The modular design, portability, and robust construction, offer versatile and adaptable solutions for storing equipment, wind turbine staging & assembly. The United States alone forecasts solar power generation to grow 75% by 2025, with wind power generation expected to grow 11%. Gain insight into the multitude of applications, from grid support to off-grid independence, that these systems can serve.
